--------	---	---

THE INFORMATION BELOW IS CONFIDENTIAL - FOR USE BY AUTHORIZED PERSONNEL ONLY

On 08/07/18 at about 0708 hours I was dispatched to a welfare check at 902 Division St. NW. The calling party was Henry Morales who was a street sweeper for the City of Olympia. Henry called about a female lying on the ground at the address that was only partially dressed.

Upon my arrival I observed a female, later identified as Yvonne McDonald lying on the ground in front of 902 Division St. Yvonne only had a bra on and her pants were down around her ankles. Yvonne's feet were up on the stairs of the house and her head was down on the ground. Yvonne appeared to be sleeping and I could see she was breathing.

I found Yvonne's purse near her which was open. Inside of her purse I located her identification and a partially opened bottle of vodka.

Based on Yvonne's status I requested medics to respond. When medics arrived Yvonne was non responsive. Yvonne had small ants crawling all over her and it appeared that she had a cut on the bottom of her chin. I did not observe any other injuries on her. Medics stated to me that it appeared that Yvonne did not have any other trauma but that she had track marks on her arms as if she had used narcotics.

I took photographs of the scene and Yvonne. At a later time I attached them to the case file. ALS medics transported Yvonne to the hospital for treatment. I was not able speak with her or get any statements due to her condition.

I checked 902 Division St. and observed that the house was vacant and appeared to be under renovation. The address on a checkbook for Yvonne was 505 Division St. NW Unit 94. Dispatch had several 911 calls from that location in reference to public services and follow-ups with Yvonne.

Case status is closed resolved as information only.

I certify (declare) under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct (RCW 9A.72.085). I am entering my authorized user ID and password to authenticate it.

Reference: Follow Up

On August 7, 2018 at approximately 1337 hours, I was dispatched to a follow up at 902 Division St NW.

While on scene, I inspected the scene where Yvonne McDonald had been found earlier in the morning. I took multiple photos of the address from different perspectives and distances, and circled the residence looking for any possible signs of a struggle. There were no obvious signs of a struggle near the residence, and there were no signs of forced entry into the residence. The photos collected while on scene will be attached to this report.

At approximately 1347 hours, I went 505 Division St NW. Unit 94 was the last known address for McDonald. Myself and Sergeant Clark attempted to contact neighbors in an attempt to gather further details on McDonalds last few days in the area. I spoke with a tenant in unit 92 names Jaye M Strickler. Stricklers unit was in a separate building, but the unit faced McDonalds unit. When I initially spoke with Strickler, she referred to McDonald as "the lad who lost her mom". Strickler had seen McDonald at Sunrise Park approximately 2 weeks prior, and mentioned that McDonald appeared to be mournful and possibly slightly intoxicated. Strickler approached McDonald and "asked if she was okay". McDonalds then went into details about her recently deceased mother.

Strickler had also seen McDonald on August 6, 2018 at approximately 1400 hours. Strickler was having a conversation at her front door with a separate party, when she noticed Strickler leave her unit and walk towards the direction of the park. Strickler said nothing had stood out to her about McDonald on that date. Strickler said she saw McDonald wearing dark pants, light colored shoes, a black hat, with her hair down and in braids. Strickler was not able to provide any further details on her sighting on McDonald on August 6, 2018.

I also received a few details from Sarah H Jacobson, who was the tenant in unit #93. Jacobson said she recalled McDonald leaving her residence between 12-1300 hours on August 6, 2018. Jacobson said she saw McDonald walk toward the Sunrise Park, where she might have been picked up by a yellow taxi.

No other neighbors were able to provide details on McDonald.

I certify (declare) under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct (RCW 9A.72.085). I am entering my authorized user ID and password to authenticate it.

On 08/07/18 at about 1300 hours I was called by a nurse at St. Peter's hospital in reference to this case. The nurse explained to me that the doctor was concerned that Yvonne had possibly been assaulted physically and sexually. The nurse stated that she was currently in the intensive care unit and that they had collected her clothing together for evidence if needed.

I told her that I would respond. I also advised Sgt. Clark of the situation. Upon my arrival at the hospital the nurses advised me that they did not expect Yvonne to survive much longer and they were not sure of the cause.

I contacted Sgt. Clark again who requested that OPD detectives respond to the hospital. I waited at the hospital for Detective Weinnig. Once he arrived I gave him all of the information that I had and he advised me that he would take over.

At that time I left the hospital. I had no further involvement with this case.

The case status is active and I am requesting that this case is sent to the OPD Detectives for follow-up.

I certify (declare) under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct (RCW 9A.72.085). I am entering my authorized user ID and password to authenticate it.

Offense: Death Investigation

Date of offense: August 7, 2018

Time of offense: Found at 0708 hours

Location of offense: 902 Division St NW in Olympia, WA

Suspect(s): Unknown

Victim: Yvonne McDonald/ DOB: 06-23-1962

Narrative:

On August 7, 2018, at approximately 1330 hours, I was activated to conduct follow-up inquiries involving an investigation that started as a welfare check at 902 Division St NW. I learned that at 0708 hours, Henry Morales, a City of Olympia street sweeper called 911 and informed the call receiver that there was a "female laying on the porch, unknown if she is sleeping or unconscious, and she is half dressed." I later contacted Morales and conducted a telephonic interview where he stated that he was performing his normal street sweeper route and was traveling Northbound on Division St NW when he discovered a mailbox in the road, approximately 3 feet from the street's gutter. Morales stated that he stopped his sweeper, exited the vehicle and moved the mailbox onto the sidewalk. Once on the sidewalk, Morales observed a purse with a card/ ID and checkbook next to it.

Morales stated that as he looked up from the purse, he observed a person, later identified as Yvonne McDonald, laying in the yard to left of the front porch just in front of a bush/ tree. Morales stated that Yvonne was on her back with her feet oriented to the south, her head to the north and her face looking away from him. Morales said that Yvonne's shirt was open and her pants and underwear were down below her knees. Morales said he was on the sidewalk parallel to Division St NW approximately 15 feet from Yvonne's location and did not approach her and did not see any blood or injuries. Morales stated that once he observed Yvonne's chest rise and fall and determined that she was breathing, he returned to his sweeper, called 911 and continued on his route northbound to Conger Rd NW. Morales turned onto Conger Rd NW and completed a lap that brought him back to 902 Division St NW where he observed Law Enforcement arriving at the address. When I asked Morales if he had any idea what happened to Yvonne, he stated, "I don't know if this is anybody's fault."

At 0724 hours, Officer Reisher arrived on-scene and observed Yvonne with her shirt undone, bra exposed and her pants and underwear down around her ankles. Officer Reisher noted that Yvonne's feet were on the stairs leading to the house with her head on the ground. Yvonne's shoes were off and on the right side of the stairs approximately

8 feet away from her body. Officer Reisher could see that Yvonne was breathing and initially thought that she was either sleeping or passed out from over intoxication. Prior to approaching Yvonne's position, Officer Reisher looked in her purse and found her ID and a partially consumed bottle of vodka. Officer Reisher approached Yvonne and noticed that she had a laceration on her chin and had ants crawling on her exposed stomach and pelvic region, but did not observe any other trauma. Based on Yvonne's condition, Officer Reisher request a medical response from Basic Life Support (BLS), which was later upgraded, to Advanced Life Support (ALS) based on Yvonne's condition. Once Paramedics arrived on-scene, they evaluated her condition and relayed to Officer Reisher that there did not appear to be any other trauma on her body, but located what they thought might be track marks on her arm (which would be signs of someone that uses IV narcotics.) It was later determined that Yvonne did not have track marks on her arm, but had dirt on her body that presented as either bruising or scars

I interviewed the primary Paramedic that initially treated Yvonne, Quinn Gagnon, from Medic 10. Gagnon, who provided me with a supplemental report, stated that BLS had arrived on-scene at 0733 hours and upgraded to ALS. The BLS personnel informed Gagnon that they had found Yvonne in the position and condition listed above, moved her from underneath the tree and began to perform lifesaving interventions and access the patient's airway. Gagnon stated that he immediately noticed that Yvonne "was sick" and had her loaded onto a stretcher and moved to the back of the Medical vehicle in order to conduct a complete assessment and begin transport to St Peter's Hospital (SPH). Gagnon noted that Yvonne had feces in her underwear and that there was a napkin like paper product stuck to the fecal stained underwear that were located around Yvonne's ankles. Gagnon stated that although Yvonne's clothes were undone, they did not appear torn or ripped. Yvonne's shirt was later cut off in order to conduct medical procedures, but no tears in the buttons appeared at the time Yvonne was located.

During the assessment, Gagnon noted that Yvonne had a small laceration to her chin that is consistent with falling and bruising to the back of the head on the right side. Bruising was also noted on the back of the left shoulder. Yvonne's chest wall felt intact but there was horizontal linear bruising across her upper abdomen and linear horizontal bruising across her mid-thighs. There were various other bruises and abrasions noted on Yvonne's arms, legs, and injury patterns potentially suggestive of track marks noted in the region of the right elbow. Due to the possibility that this was an overdose situation, Gagnon stated that NARCAN was administered. Gagnon said that he took a rectal temperature of Yvonne and observed a 1-inch hemorrhoid, but did not see any signs of sexual assault. Yvonne's body temperature was down to 84 degrees and warming measures were started in order to increase her body temperature. Gagnon stated that Yvonne was brought to SPH and he observed her belongings being placed in a bag and handed over to hospital staff. Yvonne's phone and purse were also provided to the medical staff. Yvonne's phone had been located near her body at the time she was located.

At 1151 hours, SPH Staff contacted TCOMM and stated that they had questions for Law Enforcement regarding Yvonne's condition. At 1231 hours, Officer Reisher arrived at SPH and met with hospital staff. Officer Kaiser and Sgt Clark returned to 902 Division St NW to search for evidence at the scene, but did not locate any items of

interest or observe any signs that an assault or altercation had taken place. Officer Kaiser photographed the area and submitted those photographs to RMS. Officer Kaiser and Sgt Clark then went to Yvonne's apartment complex located at 505 Division St NW #94 and conducted a canvass of the area. Sgt Clark and Officer Kaiser did not observe any obvious signs of a struggle near Yvonne's residence and did not locate any signs of forced entry into her apartment.

Sgt Clark and Kaiser contacted several other residents that lived in the vicinity of Yvonne, but received limited information. One resident, Sarah Jacobson, stated that she observed Yvonne leave her apartment at approximately 1230 hours on August 6, 2018. Jacobson stated that she observed Yvonne walk towards Sunrise Park where she might have been picked up by a taxi. Another resident, Jaye Strickler, stated that she had talked to Yvonne two weeks prior and stated that Yvonne appeared "mournful and intoxicated" as they talked about the death of Yvonne's mother. Strickler stated that on August 6, 2018, at 1400 hours, she observed Yvonne, wearing the clothes she was found in, walking away from her apartment towards the park. Stickler stated that nothing of significance stood out to her as she watched Yvonne walk away.

At approximately 1400 hours, I arrived at St Peter's Hospital and contacted the critical care nursing staff that was treating Yvonne. The primary nurse, who was focused on saving Yvonne's life, provided me with a limited description of events. The nurse stated that they were doing everything they could to keep Yvonne alive, but there was some suspicious aspects to Yvonne's condition that she wanted to relay to me. The nurse stated that Yvonne had "identical, bi-lateral bruising" to both of her mid/ top thighs, bruising to her face and scratches on her hip. She also mentioned that Yvonne had bruising to neck, but that was later determined to be dirt. The nurse stated that Yvonne's rectum was "prolapsed", but that they could not conduct a Sexual Assault Examination while she was alive because it required either consent from the patient or a certified power of attorney. The nurse was concerned that Yvonne had been assaulted and/or raped and that was the reason for requesting Law Enforcement initiate an investigation.

After getting the nurse's preliminary assessment, I contacted Yvonne's family in the hospital waiting room. I informed the family that I was conducting a detailed investigation into the circumstances revolving around Yvonne's condition at the time she was located. I informed them that I would develop multiple theories and would follow each theory as the evidence presented itself. I informed them that I would investigate the cause of Yvonne's injuries through multiple avenues to include, but not limited to an assault, a vehicular assault, and an accident. I requested that the sisters come together as "one voice" in order to communicate to me to avoid any confusion or loss of information. I passed out several cards to all of the sisters and other relatives in the room.

I provided the sisters with some of the preliminary findings and asked them what they knew about their sister and the events leading up to her body being found. The family informed me that their mother had recently passed away and that Yvonne had moved to a new apartment on the Westside of Olympia. The family stated that Yvonne was

"scarry" or "a scaredy cat" and rarely ventured out of her comfort zone. The family did state that Yvonne struggled with alcohol and that on one occasion they had found Yvonne so intoxicated at the Little Creek Casino that she appeared to not know what was going on around her and had blindly passed her ATM card to one of them, not knowing that it was her sister.

Yvonne's sisters stated that Yvonne normally took the bus or a taxi as her primary mode of transportation, but when asked how she got to a location, would always respond with "a friend dropped me off." The sisters told me that Yvonne normally purchased her alcohol at the Safeway and Rite Aid on the Westside of Olympia and that she sometimes frequented the Westside Tavern. The family stated that Yvonne had a condition where "she passes out," but was unsure if or how that condition had been diagnosed or treated.

I mentioned to the family that the paramedics thought they had seen track marks on Yvonne's arms and I asked if there was any history of Yvonne using illegal narcotics. The entire family denied the use of drugs and stated that Yvonne only drank alcohol. After meeting with the family, Yvonne's oldest sister, Cheryl Williams, pulled me aside and privately informed me that if drugs were involved in Yvonne's injuries, their other sister, Sharon "Debbie" Smith, was most likely involved and that Debbie associated with individuals that had been arrested for murder. During this conversation, I informed Cheryl that I would make her my primary point of contact for information unless they, as a family, decided otherwise. Over the next two weeks, I was in constant communication with Yvonne's third sister, Viola Young, and assumed she had been made the spokesperson from the family. I asked Viola to share all communications with her sisters, but later learned that there were communication barriers between the sisters and attempted to keep all informed with updates as I received them.

I asked the family to sign an OPD medical release form, which was signed by Viola Young. At the time, Viola was not a guardian, parent, nor did she have power of attorney and there was a question as whether this document would allow for the release of medical information. It was later determined to be sufficient for some entities, but I was not able to get any medical records from SEAMAR Medical due to their being no power of attorney or court order.

After meeting with the family, I returned to the critical care unit and retrieved the bag of Yvonne's personal effects to include the following items:

- Yvonne's cellphone
- Black pants with white and pink stripe
- Flower patterned shirt with blood on upper front portion of shirt
- Purse
- Wig and black hat
- Pink bra

- Check book and wallet
- White shoes
- Half consumed bottle of vodka
- \$2.46 in cash and coin
- Fred Meyer receipt for August 6, 2018

I secured the items, separated them into multiple bags and placed them into temporary evidence for future processing.

After processing and organizing the clothing recovered from the hospital, I realized that Yvonne's underwear was not included in the items provided to me. I first contacted the paramedics that initially treated Yvonne on the scene and enroute to the hospital and they stated that they did not dispose or remove Yvonne's underwear. Gagnon did state the underwear worn by Yvonne was significantly soiled with feces, but there did not appear to be any visible bloodstains. I contacted the Critical Care Unit's supervisor and she stated that the staff was most likely too concerned with saving Yvonne's life and less focused on retaining items as evidence and that they might have disposed of the soiled underwear in their Hazmat container.

I then went to the Thurston County Prosecutor's Office in order to consult them on the case and receive direction on what I was and was not able to search for evidence. I was informed that I could access Yvonne's cellphone and apartment in order to retrieve any information that may provide an indication of what happened to Yvonne.

Following the meeting, I returned to the Olympia Police Department and removed Yvonne's phone and purse from temporary evidence and requested our digital evidence technician conduct an expedited download of the phone's data. Yvonne had very few incoming calls with the majority coming from either taxi services or a male friend identified as Larry Moore. There was one phone call from Yvonne's sister Debbie at 1133 hours on August 6, 2018. Debbie had stated that she had made this phone call and stated that they discussed their mother and that everything appeared fine at the time. Yvonne's outgoing calls were again primarily to Larry or taxis, but on August 7, 2018, Yvonne called her voicemail four times with the following information:

Time called	Duration
02:23:12	N/A
02:23:24	N/A
02:23:55	0:00:09 seconds
02:24:22	N/A

The last phone call Yvonne made prior to the above calls was to her voicemail on August 6, 2018, at 1940 hours.

It is possible that Yvonne attempted to redial the last number called when she attempted four calls to her voicemail in just over one minute. The phone was sent to the WSP Crime lab for latent print and DNA testing to ensure that no one else attempted to use her phone.

After reviewing the call logs, I read Yvonne's received and sent text messages. The majority of the sent messages were to Yvonne's sisters either asking for pictures of their deceased mother or asking for a private sisters only memorial service. The majority of the text messages Yvonne received were from her sisters contained a very angry/resentful tone. Below are some examples of those text messages:

06-16-18: Appears to be from Debbie:

"its bad enough you guys don't talk to me. I bet mamas tripping on ho my sisters treat me. I ask all of my 3 sisters why you guys don't like me and no one can say why. And you don't talk to me why Im the one who gave you a ride Im the one who bought you food when u didn't have any. Listen to this with all my health problems im am dying and it's a cold world when you have to die alone. Its not my choice to die alone. I wont beg no one to like me even my family. But one thing for sure I be glad when I do so mama and God loves me. I love you and have a good day sis"

06-27-18: From Viola:

"Do me a favor do not call me with bs, or I went to Louisiana yesterday. Call me when you are in your right mind and no one is molesting you. Your lies are sickening and tiresome. Please get help, no wonder word in street you be so drunk people take advantage of you. SEEK HELP. I'm going to hang up everytime you call me with stupid stuff you say... Be safe seek help. Do not call my kids for questions or your lies because I told them to block you."

07-19-18: From Cheryl:

"Listen dumbass that's your nickname. I wasn't asking to live with you I only wanted to stay the night so I could take the bus in town to go with my husband. You are a jackass just like the rest of my sisters. I will be blocking your number f*** you from now on don't try to contact me."

"PS dumbass my mother said keep your name out of her mouth for at least 90 days. She's sick of your ass too."

07-23-18: From Viola:

"I have nothing to do with you or Debbie. If lawyer calling you then she wants to talk to you not me. Handle it just like you handle everything else. Don't mention Debbie to me we don't talk and we never will. You and Debbie are liars and Evil so you both deserve each other."

08-03-18: From Viola:

"Now I am getting a restraining order on you like I got 4 debbie. When do I owe you money. Your nieces, my daughter and myself paid for Mama memorial. Get yourself together. I'm having you serve with papers for a restraining order."

Based on the tone of some of the text messages between the sisters, it appeared that relationship between Yvonne and all her sisters was strained. I attempted to clarify the text messages with the three sisters, and all acknowledged that I would find some harsh words in the messages they sent, but that none of them were responsible for Yvonne's death.

I searched Yvonne's purse and confirmed the presence of a half consumed plastic bottle of vodka. I also located several of Yvonne's ID's, her checkbook with her checks, her debit card and \$2.46 in cash and coins. I also located a receipt from the Fred Meyer in Lacey with a time stamp of August 6, 2018, at 1555 hours. I later contacted the Fred Meyer Loss Prevention/ Security staff and requested a copy of the video footage from that time. I attempted to pick up the footage on August 13, 2018, but the Loss Prevention Officer was unavailable. I returned on August 16, 2018 and reviewed the video. In the footage, Yvonne is observed purchasing a bottle of vodka and a Sparkling Ice flavored water. Yvonne then walks to the bathroom, is there for approximately 5 minutes, then exits the store, and walks towards the Fred Meyer Garden Center entrance. It is unsure if Yvonne caught a cab or walked to the Lacey Inter-transit Center and took a bus. I requested the video from the Lacey IT Center for both the terminal and the buses, but no footage of Yvonne was available or provided.

After reviewing the data on Yvonne's phone and the items in her purse, I went back to 902 Division St NW, canvased the area, and walked the entire property of where Yvonne was found. I travelled up and down both sides of the street from Yvonne's apartment complex to 902 Division St NW looking for any video surveillance cameras on any of the houses, but was unable to locate any. I then talked to some of the neighbors near where Yvonne was found and none of them had heard or seen anything.

On August 7, 2018, at approximately 1900 hours, I received a call from the SPH critical care unit informing me that Yvonne had died and that the coroner's had been contacted and was enroute to secure Yvonne's body. I contacted Deputy Coroner Seese and he informed me that the autopsy would be scheduled for August 10, 2018 due to staffing and scheduling.

On August 10, 2018, at 1000 hours, I attended the autopsy of Yvonne at the Thurston County Coroner's Office. Following the 6-hour autopsy, the Pathologist provided me with a verbal preliminary summary of his findings. He stated that the most likely cause of death was a small laceration in Yvonne's gall bladder that could have occurred from some sort of blunt trauma. The Pathologist stated that the mechanism for this trauma was unknown, but

Reference: Follow Up

could have occurred during a fall or from a hit to the stomach. The Pathologist identified other bruises and scratches to Yvonne in the following locations:

Scalp hemorrhage to top of head

Bruise on left cheek

Lateral bruise on abdomen

Bilateral bruises to the top of both thighs

Bruise over the belly button in the subcutaneous fat

Scratches on left shoulder blade

Scratches/ abrasions on right hip and back of thigh

Scratches and bruises to shins most commonly from falling

Laceration to underside of chin

There were two liters of blood in Yvonne's stomach and her liver was fatty. I was informed that Yvonne had multiple transfusions while being treated and that, along with the laceration to her gall bladder, would explain the amount of blood in her stomach. The Pathologist stated that for this type of bleeding to happen, the liver was most likely failing. Yvonne had no clotting factors, which is normally a result of alcoholism.

The Pathologist said that Yvonne had weak bones, but the only bone or cartilage damage was due to CPR.

The Pathologist stated that there was no sign of sexual assault and that the damage to Yvonne's rectum was a 1-inch hemorrhoid. There was no blood in Yvonne's rectum or colon. No evidence of trauma to Yvonne's pelvic region. No strangulation and no bruises to her neck. There were no stab or gunshot wounds located.

On August 13, 2018, at 1000 hours, I met Viola at Yvonne's apartment in order to see if there was any evidence that a crime occurred in her residence. I requested that Viola remain near the parking lot and I knocked and announced on Apartment #94 at 505 Division St NW. I then used a key that I located in Yvonne's purse, entered, and cleared the residence. During my initial search, I did not observe anything out of place or any sign that a disturbance had occurred. Although the apartment was not overly dirty, it did not appear that it had been cleaned and there was no smell of cleaning materials in the apartment. After clearing the apartment and ensuring that there was no apparent crime scene to conduct further investigation. I asked Viola to come into the residence to see if there was anything that might have been missing or out of place. Viola stated that she had never been in Yvonne's apartment, but thought she might be able to tell if any of her jewelry was missing. While Viola looked over Yvonne's property, I conducted a secondary search and noticed that Yvonne's computer and other high value items were still in the apartment. I also noticed fecal stained underwear sitting on the top of the bathtub near the toilet. I noticed two boxes of medications on Yvonne's kitchen table that were from January 2017 and appeared to be for nausea and upset stomach.

After meeting with Viola, I was out of the office on several scheduled days off, but was contacted by Yvonne's oldest sister Cheryl, who requested a meeting. I informed her that I was unavailable until the next week and set up a time to provide her an update on my investigation. On August 20, 2018, at 0730 hours, Lt Allen and I met with Cheryl and three other individuals who initially stated that were there to support Yvonne's sister. The individuals identified themselves as Katlyn Odell, Diego Lopez and Alex Farber. During the contact with Cheryl, Mr. Lopez pulled out a voice recorder and stated that he was going to record the conversation. I requested that I record the conversation as well and everyone in the room agreed. During the meeting, Cheryl went through Yvonne's medical records and asked questions about the information that was contained therein. Cheryl focused on some of the notes provided to include the following items extracted from Yvonne's 180-page medical report from 08-07-2018:

"Hypothermia"

"Trauma (Major)"

"Female who presents to the ED by RMS unresponsive covered in ants and feces found in a flower bed with her pants and underwear around her ankles. Pt was found to be profoundly hypothermic. . . She was covered in bruises."

"Linear bruises across abdomen"

"Victim of assault?"

I informed Cheryl that I was not a medical doctor and that I could not speak to the statements provided in the medical reports, but would attempt to answer any questions that she might have in relation to my investigation and the information I had obtained to that point. Cheryl stated that she and her sisters were not communicating with each other and asked that I call all of them individually in order to provide updates on the case. I informed her that I would do my best to keep her informed and would continue with the investigation.

On August 22, 2018, I repackaged and processed all of Yvonne's personal property along with the evidence provided from autopsy. I submitted the items to the OPD Evidence Technician and requested the items be sent to the WSP Crime Lab for DNA testing. I was informed that the items would not be sent out until the next week due to staffing and procedural requirements. On August 28, 2018, I contacted the WSP Crime Lab supervisor and requested the items be expedited for processing. I was informed that they would be sent to the Seattle Lab and labeled as a "high priority" for testing.

On August 24, 2018, I attended a meeting at the Thurston County Coroner's Office where all of Yvonne's family was invited to receive an update to the case. Viola, Debbie and several other family members attended, but Cheryl was not there, but did send a representative in her place. Cheryl later called in and focused her questions on the possibility of a coroner's inquest.

With little information developing regarding what happened to Yvonne, I contacted several business in the area of 505 Division St NW to include, but not limited, Westside Lanes, Dollar Tree, and Grocery Outlet. All of the business that I talked to stated that they recognized Yvonne, but had not seen her in the last week. Some of the people contacted stated that when they did talk to Yvonne she seemed lonely and sometimes intoxicated.

During my investigation, I conducted an emergency calls for service check in reference to Yvonne and her residence. Since January 2018, Yvonne had contacted Police or the Fire Department seven times:

-02/10/2018 (1520 hours): Yvonne called 911 with questions about how to file a restraining order.

-04/30/2018 (0552 hours): Yvonne call for medical assistance due to vomiting and "twitching" in mouth, Yvonne was transported to Capital Medical Center and left against medical advice. Alcoholism concerns were made by the hospital staff, but Yvonne refused inpatient treatment.

-05/20/2018 (2306 hours): "Mental Disturbance"- Yvonne called 911 and stated that she was in a hotel in DuPont, but was unsure which one. TCOMM was able to determine that Yvonne was actually in her apartment, but Yvonne insisted that she was not in her house even though "the inside of the apartment looks like hers with all of her stuff inside. Yvonne reported she has been drinking tonight, but says that has nothing to do with why she isn't at home." It was determined that Yvonne was in her apartment, but she was highly intoxicated.

05/21/2018 (0509 hours): "Mental Disturbance"- Yvonne called 911 from the Texaco gas station located at the intersection of Harrison Ave and Division St and, according to the call receiver, "was not making any sense." Yvonne was saying something about a guy bringing her home and looking at her wardrobe and that the male was still in her apartment and that she just wanted her stuff back. In the notes, the call receiver stated that Yvonne was claiming that no one was helping her because she was black and that the clerk at the store she was calling from was mad at her because she is a black woman. Officer Tomsik arrived on-scene and contacted Yvonne. Officer Tomsik stated that Yvonne appeared highly intoxicated and could barely stand on her own. Officer Tomsik informed me that Yvonne told him to "fuck off, cracker!" Officer Tomsik transported Yvonne to her apartment; he and another Officer cleared Yvonne residence to ensure no one was there and assisted Yvonne inside while she accused them of being racist. Officer Tomsik stated that it did not appear that anyone other than Yvonne had been at the house, but that she was extremely intoxicated at the time of contact.

06/20/2018 (2338 hours): "Drunkenness"- Yvonne contacted 911 stating that she and a female neighbor named Holly Estrott had been drinking and that Holly had "jumped her and started kissing her." Officers arrived at Yvonne's apartment complex to find Yvonne stumbling drunk in the courtyard. Officers attempted to assist Yvonne, but she was too intoxicated and could not stand up by herself. Officers assisted Yvonne back to her apartment and contacted Holly who informed them that they had both consumed a large bottle of vodka. Holly stated that they

she and Yvonne were talking about the passing of Yvonne's mother and Holly attempted to console Yvonne with a hug and Yvonne "freaked out". Yvonne called 911 on two occasions following this event and asked to "retract her complaint" against Holly. I later conducted a telephonic interview with Holly in relation to this event and she stated that she was neighbors with Yvonne and that they had connected over both being from New Orleans and at one point had traded Mardi Gras dolls, which Yvonne later took back. Holly stated that on 06-20-2018, Yvonne had come over to her apartment in the late afternoon, early evening and they began drinking and talking about the death of Yvonne's mother. It was apparent to Holly that Yvonne truly missed her mother and that she was struggling with the loss. After they drank in Holly's apartment they went over to Yvonne's residence, opened a large bottle of vodka, and continued to drink to the point of extreme intoxication. Holly stated that things were a little hazy, but remembers giving Yvonne a hug and Yvonne getting mad and calling the police.

Holly went on to state that she observed Yvonne intoxicated on numerous occasions, stating, "She was constantly drunk." Holly informed me that she had seen Yvonne fall up a short 3-step flight of stairs in front of her apartment at least two times. On one occasion, Holly was on a transit bus when Yvonne boarded the bus, "obviously drunk, totally out of it and shaking and it was clear that she had messed or pooped her pants." Holly claimed that Yvonne remained standing for the rest of the bus ride. On another occasion, Holly observed an unknown male carrying Yvonne into her apartment because she could not stand up from apparent drunkenness.

Holly made the statement that Yvonne was "determined to kill herself with alcohol . . . it's sad because I knew I couldn't help her."

I conducted a complete medical review with the documents I was provided and learned that Yvonne had several underlying medical conditions and had been treated for over intoxication and falls related to alcohol consumption.

April 2017- Yvonne had a colonoscopy at SPH due to unintentional weight loss, vomiting, nausea and a change in bowel habits. It was determined that she had H. Pylori which is a bacteria that causes sores or ulcers in the stomach and small intestine. Yvonne was given medicine to kill the bacteria, but I later learned that she refused to take the medicine because she had heard that it might cause cancer.

May 2017- Yvonne returned to SPH with the same symptoms to include constant diarrhea and constipation. She also stated that she was having an allergic reaction to the medicine provided. Yvonne reported that she only consumed two shots a day, but that she had been "highly anxious," as well as experiencing vision changes, itching, insomnia, neck and bilateral leg pain. Yvonne requested to see a Crisis Counselor.

June 2017- Yvonne presented to SPH with chronic abdominal pain along with tendinitis in her lower legs due to the medications she was provided. Yvonne stated that she had stopped taking the medications approximately 3 weeks prior.

July 2017- Yvonne presented at SPH with passive suicidal thoughts, saying, "The world would probably better if I wasn't in it." Yvonne did not want to stay to talk to a counselor, but did state that she had been feeling this way for up to a year, but I cannot go to BHR.

In August and September 2017, it appeared Yvonne presented to SPH Emergency Room, but left before being seen. December 2017- Yvonne presented to SPH for facial pain and was given an ice pack and Tylenol while she waited to be seen by the doctor. Yvonne became upset and stated "I didn't get any help. I don't like this hospital." Yvonne refused further treatment and left.

April 30, 2018- Yvonne arrived at SPH after leaving Capital Medical Center (CMC) and requested a CAT scan due to experiencing tingling across her upper lip. A CAT scan was conducted, but nothing was found. The hospital staff noted that Yvonne was found walking towards the exit with an IV in her arm and was escorted back to her room. The staff member stated, "Patient appears mildly confused." Yvonne had been brought to CMC via an ambulance and they annotated that she suffered from alcoholism. Yvonne was discharged and told to follow-up with her primary care provider.

July 11, 2018- Yvonne was brought to CMC via ambulance for alcohol intoxication and a head injury resulting from a fall. Yvonne stated that she had been drinking and fell when she was adjusting a rug in her home. The doctor that evaluated her stated that she showed no acute injuries, but he "suspected she is a chronic alcoholic with malnutrition."

July 12, 2018- Yvonne returned to CMC a day after being brought to the hospital by ambulance and the History of Present Illness log stated, "Female with history of alcohol abuse who presents today with neck pain after sustaining a fall at home . . . She reports generalized weakness and frequent falls." The medical plan stated that Yvonne was at "severe risk for alcohol withdraw" and that she "is in significant denial about her alcohol use." The doctor recommended in-patient alcohol addiction treatment, but Yvonne left against medical advice (AMA) prior to being fully admitted.

July to August 2018- Yvonne contacted the Olympia Free Clinic an attempted to set up and appointment with a crisis counselor, but never showed for any of the appointments. During the initial intake, Yvonne stated that her mother had just passed and that "It hurts." Yvonne stated that she wanted to be "free of fear. To be able to breathe and live my life free." Since Yvonne missed several of her appointments, the notes for August 1, 2018, stated, "I have spoken to the patient on the phone several times and she tells me she intends to come for therapy sessions but does not show up. She seems mentally confused to me."

Although I was not able to get copies of Yvonne's medical records from SEAMAR. I was able to sit down with

her primary care provider, Dr. Lakin, and get a summary of her medical history. Dr. Lakin discussed the above listed events and stated that Yvonne underestimated her alcohol intake and was very frail and highly anxious. Dr. Lakin said that Yvonne refused to get mental health treatment and cited her mother's death as a reason to avoid getting help. Dr Lakin stated that on two occasions in late 2016 and early 2017, Yvonne was transported to St. Claire's Hospital in Tacoma after being found unconscious and unresponsive on a casino floor due to over intoxication.

On September 5, 2018, I conducted a follow-up recorded interview with Larry Moore. Larry confirmed the above events where Yvonne was found unconscious on the casino floor. Larry stated that on both occasions, he had gone there to pick Yvonne up to bring her home and the paramedics were taking her away. Larry stated that he had known Yvonne for over 30 years and that they had been in a romantic relationship in the past, but had not had intercourse in over 4 months. Larry stated that he is married, but he and Yvonne have remained friends and he has helped her with transportation when he was able. Larry informed me that over the last year or so, he would normally see Yvonne once a week on Friday, when he drove to work. I asked Larry if there was anyone that wanted to hurt Yvonne and he stated no, but that her sister Debbie intimidated her.

Larry informed me that since the death of Yvonne's mother, he has been concerned for Yvonne. Larry said that Yvonne had "lost touch with reality" and there were times when "she would be out of her mind . . . I have seen her in such a state that she was totally confused."

Larry informed me that when Yvonne started to drink "it was hard to tell what was going to happen." Larry said that he was worried about Yvonne's drinking and stated that she was falling a lot and that she was constantly complaining about how she kept running into things. Larry said that it was so bad on one occasion that she had blacked out, fell, and split her lip. Larry said Yvonne "was drinking so much, something was wrong with her mentally."

Larry told me that the last time he had seen Yvonne was on Friday, August 3, 2018 at approximately 1200 noon. Larry said he was supposed to meet Yvonne at Bayview Thriftway and take her to the Downtown Food Bank and then give her a ride home with all of her groceries. Larry said when he arrived; Yvonne was sitting in the bus shelter, so intoxicated that she was unable to walk on her own. Larry stated that he brought Yvonne to lunch at a Chinese Buffet in an attempt to help her get sober and then brought her home.

I informed Larry of what Holly Estrott had told me about Yvonne "soiling" her pants on the bus and Larry said that Yvonne had told him about that event and that she had been unable to control her bowel movements on numerous occasions. I also mentioned that Holly had said that she thought Yvonne was trying to drink herself to death and Larry said, "I could have made the same statement."

Throughout the investigation in to Yvonne`s death, I received over 100 phone calls from concerned citizens interested in the progress of my investigation. Out of the many calls, only one individual provided any information relating to Yvonne. Michael Wilkinson, who resides at 1801 Bowman Ave NW, which is 517 feet from where Yvonne was found, informed me that at 0224 hours on August 7, 2018, he and his wife were awoken by a loud scream. Michael stated that he and his wife were asleep in their bedroom, which is on the south side of the house, with their windows open when they heard a "worrisome scream." Michael said the scream lasted for 3-5 seconds and sounded like a young girl. Michael described the noise as a "death scream" and thought that it came from the south or southeast of their house, but he could not be exactly sure. Michael and his wife said that they listened after the scream, but did not hear any moaning or voices.

After talking to Michael, I walked the neighborhood behind their house, knocked on doors, and talked numerous residents. No other individuals stated that they had heard anything that night.

On October 4, 2018, I met with Cheryl Williams and her daughter Talauna Reed at Talauna`s place of business, Heads Up Wigs located in Lacey, WA. The day prior, Yvonne`s family, along with several other advocacy groups, met with the Olympia City Manager and the OPD Deputy Chief to discuss the case. During the meeting, Talauna informed the Deputy Chief that she had information that she wanted to share and requested that I schedule a meeting/interview. Talauna provided me with information that she had recently sent in reference to an unusual encounter she had with a white, "middle aged" male that had come into her store the day after Yvonne`s death. Talauna provided me with a plate number AVK 0622 that returned on a tan 2015 Volkswagen Jetta registered a Claudette V. Selkridge in Lacey. Based on research of Selkridge, it appears that she is a CPS worker in Thurston County. Talauna stated that the situation was unusual to her because the male stated that he was inquiring for his wife and asked if she did perms. Talauna stated that she thought that the male was looking for cameras in the business, as if he was attempting to conceal a previous time that he had been there. Based on the information recovered from the Law Enforcement database, I eliminated this individual as a possible suspect.

Talauna and Cheryl also informed me that I needed to look closer at Cheryl`s other sisters as possible suspects, especially Debbie Smith. Talauna stated that Debbie is known to associate with drug dealers and users and that she was once seen with an individual that she identified as Anthony Wilson AKA "Krusty", who Talauna claimed was a "murderer." Through research, I located an Anthony Wilson, but he had no ties to Thurston County and was last arrested in Issaquah on May 21, 2018, and appeared to be homeless in that region.

This investigation is awaiting the Pathologist final determination as to the cause and manner of death and the DNA/rape kit results return from the WSP Crime lab.

STATUS: This is an open investigation and will remain open pending any new information to include, but not limited to results from the WSP Crime Lab and a disposition on the cause of death by the Pathologist, as noted

On November 08, 2018, as a Detective with the Olympia Police Department Investigative Division, I received a Crime Laboratory Report from the Washington State Patrol DNA Division, which concluded the following results from the Yvonne McDonald analysis:

1. No semen was detected on the oral, vaginal, or rectal swabs or the left or right hand fingernails and scrapings.
2. No male DNA detected in the extracts from the vaginal or rectal swabs.
3. A low amount of male DNA was detected in the extracts from the oral swabs and the left hand fingernails and scrapings.
4. The DNA profile obtained from the right hand fingernails and scrapings in mixed origin consistent with having originated from two individuals. Assuming Yvonne McDonald is one of those contributors, the deduced male component was searched against the Combined DNA Index System (CODIS) and no matches resulted.

After I received the report, I contacted the lab and discussed the results. I was informed that the low amounts from the oral swabs could have been transfer from any medical tubing that was placed in Yvonne's mouth or from a postmortem contribution. The Analyst stated that oral DNA rapidly dissipates due to the body's production of saliva. The lab informed me that the DNA profile pulled from the right hand was processed through the Combined DNA Index System (CODIS) with no matches located. The Lab stated that a suspected reference sample is required in order to make a comparison. Because there is no information or evidence indicating a possible suspect, no samples were provided. A copy of the Crime Laboratory Report was submitted with this report.

In mid-March 2019, I received information from the Thurston County Coroner's Office that Yvonne's toxicology report had returned and her blood alcohol level at the time of the blood was drawn was a 0.15 BAC

On April 02, 2019, I received a copy of the Postmortem Examination Report conducted by Dr. Eric Kiesel. The reported stated the following:

Cause of Death: Blunt force trauma of abdomen

Other Significant Findings: Complications of chronic ethanolism (Alcoholism)

Manner of Death: Undetermined

Dr. Kiesel informed me that Yvonne was not raped, stabbed, shot, or involved in a vehicle versus pedestrian collision. Yvonne did have a hemorrhoid causing her rectum to protrude from her anus, but there was no signs of sexual assault. There were multiple bruises spread throughout Yvonne's body of varying ages that are consistent with injuries sustained from falling.

Dr. Kiesel's listed opinion of Yvonne's cause of death is as follows:

"Yvonne McDonald, age 56 years, with a past medical history is significant for chronic ethanolism (alcoholism), was found unresponsive out of doors with her pants pulled down around her legs just below the knees. She was noted to have numerous contusions of varying ages consistent with numerous falls. Her death is attributed to blunt force trauma of the torso. Her abdominal injury is consistent with a fall, however an assault cannot be ruled out. In view of the information available at this time concerning the circumstances surrounding her death, the manner of her death is classified as undetermined."

From the blunt force trauma to the abdomen, Yvonne sustained a 4.5 x 0.7 cm laceration of the gallbladder bed. This injury caused 1600cc (1.6 liters) of blood to accumulate in the space between the inner lining of the abdominal wall and the internal abdominal organs.

Because the manner of death was ruled undetermined by the pathologist and there is no suspect information or evidence of a crime, this investigation will remain open pending the discovery of new details pertaining to Yvonne's manner of death.

STATUS: Open investigation, pending new information.
